

MSG 058 - BLUE FD06 MISSION SUMMARY

1
2 Good Morning Columbia!

3
4 Another great job on FD05 MEIDEX operations. We hope to catch some more Elves when
5 we get a chance to analyze the Sprite video. On FD05 SOLCON completed two solar pairs
6 and has a lot of great data to dive into. This has also been a very active and productive day
7 for LPT and CVX, while SOLSE is standing by for their first limb view.

8
9 SpaceHab big picture items will be discussed during the DPC.
